DLA Newsletter vol. 23
the Digital Liberal Arts

In this issue:

- Behind the Scenes: Kirsten Hoving
- Hypothes.is Workshop
- April Data Bootcamp
- Zotero Workshops
- AALAC Digital Language Learning Conference
- Save the Date: Bethany Nowviskie

Behind the Scenes: Kirsten Hoving

Join us on **Tuesday, April 25th from 12:15-1:30pm** for our next Behind the Scenes presentation.
Kirsten Hoving, Professor of History of Art and Architecture will discuss her DLA project of creating a digital exhibition catalogue for the Middlebury College Museum of Art's upcoming exhibition, "Land and Lens: Photographers Envision the Environment." The catalogue will be available on iPads for museum visitors to consult while in the exhibition and includes text, videos, and student-composed music.

Lunch will be provided. Please RSVP so that we can order enough food.

RSVP to April's Behind the Scenes

Hypothes.is Workshop

Join us on **Thursday, April 7th from 1:30-3:00 in the Wilson Lab** to learn about Hypothes.is! This workshop explores collaborative web annotation as a core digital pedagogical practice in the 21st century classroom. This emergent technology enables everyday Internet users to comment on or publicly discuss any web page. It can be applied in education to teach students traditional literacy skills and newer forms of digital literacy. Workshop participants will gain hands-on experience with an open-source, standards-based annotation client, Hypothes.is, and receive guidance on using Hypothes.is in WordPress, Canvas, and on the open Web.

This workshop is an extension of <u>an online course</u> taught by Jeremy and Middlebury's Sean Michael Morris. RSVP is not required.

Zotero Workshops

Your friendly Middlebury librarians Ryan Clement & Wendy Shook will be holding a series of Zotero workshops for both faculty and students in mid April – two in Davis Family Library and two in Armstrong Library. Dates and times:

11am–12pm, Tuesday, 04/11 in LIB 145 (first floor Davis Family Library conference room)
3–4pm, Tuesday, 04/11 in MBH 161 (Armstrong Library Computer Lab)
10–11am, Friday, 04/14 in MBH 161 (Armstrong Library Computer Lab)
3–4pm, Tuesday, 04/18 in LIB 145 (first floor Davis Family Library conference room)

Zotero is a free, easy, and powerful citation management tool that can help scholars and researchers collect, organize, and annotate resources as well as creating citations and bibliographies using thousands of styles. Available to both Mac and PC users, with plugins available for most modern web browsers as well as Microsoft Word and Libre Office.

Sign up for a Zotero Workshop

AALAC Digital Language Learning Workshop

This workshop on April 7-8, generously funded by the Association for the Advancement of Liberal Arts Colleges (AALAC), will include conversations about how the digital can transform language learning in liberal arts contexts. Participants will look at the ways in which digital language learning transforms traditional classrooms by amplifying deep connections, improving differentiated instruction, and extending language learning beyond the walls of the classroom.

Some of the program highlights include Breakout Sessions through which participants will explore and dive deeper into one of the following topics:

- Topic 1: What forms of teaching and learning does the digital privilege and are those approaches aligned with what we want for language learners? How can we reach more learners more effectively? Led by Gabriel Guillen, Middlebury Institute for International Studies at Monterey
- Topic 2: How does digital language learning complement face-to-face language instruction? What can/does hybridity in language learning look like? Led by Felix Kronenberg, Rhodes College
- Topic 3: How can digital language practices connect students successfully across cultural and national borders to impact intercultural communication? Led by Trina Marmarelli, Reed College

Additionally, workshop participants will engage in Lighting Rounds: brief presentations by participants on topics such as mobile assisted language learning, Google Tour Builder in the language and culture classroom, using Corpus Linguistics Research Methods in language teaching, Globally Connected Courses initiative and practice, and more. As part of the workshop, the ODL will also host a Technology Test Kitchen, which will provide a relaxed and playful space for talking about technology. There will be a table of gadgets and toys to help spark discussions about digital language learning as well as "plug-in" stations where people can connect their laptops to showcase their work to others.

Visit the AALAC Workshop Page for More Info & Full Schedule

Save the Date: Bethany Nowviskie Visit

Bethany Nowviskie is the Director of the Digital Library Federation (DLF) at CLIR, the Council on Library and Information Resources, and Research Associate Professor of Digital Humanities in the Department of English at the University of Virginia. She will be joining us on **May 16th and 17th** during the reading days for faculty consultations and group conversations. Mark your calenders and keep your eye out for more information!

If you have any questions about the DLA mailing list, or if you would like to add an event,
please contact Kristy Golubiewski-Davis at kgolubiewskidavis@middlebury.edu .
