Dear Michelle,

A LOTUS FOR MICHELLE

I just wish that these pains didn't hurt so badly.
These experiences of having pains on the road to true love.
Fear that maybe I am destined to be a black woman, chillin' up.
It does not please me as it did before. I am trying to shed the
deep-seated fear still buried in the pit of my chest, even
my energy so that I could take the risk of falling in love.
But I have not given up hope yet. I am learning to love
the monikers in progress, the daughters, and the daughers who
have yet to be born.

What did you do to take care of yourself during all of your time in Europe? Did you travel to other countries or stay in one place? How did you feel during this time in Europe? Was there a particular moment or experience that stood out to you?

As a French woman, I always had to be careful about my appearance. I didn't want to appear too rough or too casual, and I wanted to make sure I was always presentable. But it was a lot of work, and sometimes I felt like I was losing myself in all of the demands of being a woman in France.

One day, I decided to take a break from it all. I went to a small village on the outskirts of Paris and just relaxed for a few days. It was nice to be away from the pressures of being a woman in a society that values beauty and perfection.

I spent my days walking around the village, admiring the local art and architecture. I met some interesting people and had some good conversations. It was a nice change of pace from the hustle and bustle of Paris.

The village was small, but it had some lovely cafes and bistros where I could enjoy good food and drinks. I also visited some of the nearby countryside and went on hikes in the mountains. It was refreshing to be outside and get away from the city.

I think it was important for me to take this break and just relax. It helped me to recharge and find my inner peace. I hope that others can do the same when they feel overwhelmed by their daily lives.

A Lotus for Michelle

For you, Michelle!

There is a saying, "Words are not meant to be taken lightly." It is true, words have power and they can either heal or harm. Your words in this letter have touched my heart and I want to use this platform to share my thoughts.

Michelle, you are an inspiration. Your words have the power to move mountains. You have the courage to speak truth, even when it is not easy. Your resilience and strength are an example to us all.

I want to thank you for your friendship and support. Your words have helped me through difficult times. You have shown me the importance of standing up for what is right, even when it is not popular.

Michelle, you are a true friend. I value your friendship more than words can express. I hope you find the strength and courage to continue on your journey, knowing that you are not alone.

Thank you for being a beacon of light in my life. Your words have touched my heart and I will carry them with me always.
