The SerVermont AmeriCorps*VISTA Program is a statewide national service program in its third year. We will place 27 members at community-based organizations and state and municipal agencies whose mission and VISTA assignments cover focus areas including Veterans, Economic Development, Healthy Futures, and Education. Our VISTA members build and strengthen systems in order to increase their site’s capacity to provide services that alleviate poverty to those who need them most. Our operational funding comes from the Corporation for National and Community Service (CNCS).

SerVermont VISTA members help alleviate poverty in their community through the following activities:
- Recruit, train and manage community volunteers and mentors
- Develop curricula for job and skills development programs
- Initiate efforts to support military members who have had family members deployed
- Support programs that teach gardening and preparing nutritious meals and develop systems to ensure low-income families receive healthy, nutritious food
- Develop public relations campaigns
- Create operational systems (e.g. databases)
- Identify and collaborate with community stakeholders
- Create strategies to promote affordable housing
- Develop resources (grant writing, fundraising events, soliciting in-kind donations)

VISTA members serve through community-based non-profit organizations and public agencies, addressing issues related to poverty by developing and mobilizing resources that create long-term sustainable solutions at the community level. Focus is on resource development and capacity building, not on direct service. VISTA members are national service members and not employees.

Each VISTA makes a year-long, full-time commitment to serve on a specific project at a host site. They live and serve in some of our state’s poorest areas. VISTAs receive a modest living allowance that is linked to the poverty level in their community so that they can better understand those that they serve. They also receive professional development training throughout the year and are well equipped for employment in the nonprofit sector after their year of service.

Approximately 300 individuals serve over 550,000 hours as AmeriCorps members in Vermont each year. SerVermont VISTAs become part of a rich alumni network and a lasting legacy of service in the state. Join us and help get things done in Vermont!
