HEALTH PROFESSIONS

OUR 2019 MATRICULANTS

94% candidates accepted to medical school

100% candidates accepted to dental school

100% candidates accepted to veterinary school

SNAPSHOT OF THE APPLICANT COHORT

31% studied abroad

17% had a nonscience major

30% were student-athletes

Q&A

DO I NEED TO MAJOR IN SCIENCE TO BE PREHEALTH?

No—you can major in anything, but you need to complete prerequisite course work.

CAN I BE PREHEALTH AND STUDY ABROAD?

Yes. Plan your course sequences thoughtfully (particularly chemistry) and consider studying for one semester or summer rather than a year, or plan to complete additional course work through continuing education or a postbaccalaureate program.

CAN I PLAY SPORTS AND STILL BE PREHEALTH?

Absolutely. Many students balance both academic and athletic pursuits. That is one benefit of a liberal arts experience.

CAN I APPLY AS AN ALUM AND STILL GET SUPPORT FROM MIDDLEBURY?

Yes. We support alums as well as current students in their pursuit of careers and graduate programs in the health professions field.
