Re: Starksboro 'Art & Soul Civic Engagement' Application

Betsy:

Big Heavy World is developing a scenic turnout/commuter park-and-ride at property we've been given in Starksboro. We're working with the town selectboard to derive the greatest community benefit from these parcels that comprise our future Vermont Music Library archive facility. From my perspective, Starksboro has a very earnest interest in fostering creative community-oriented endeavors that involve multiple partners and new ideas, and as a town has immense potential for success with the Orton Family Foundation 'Art & Soul Civic Engagement' project.

I hope you'll think favorably of the Starksboro application and am grateful for the opportunity to support it.

Sincerely,

James Lockridge, Executive Director
The Big Heavy World Foundation, Inc.
