Get Power Strip kits

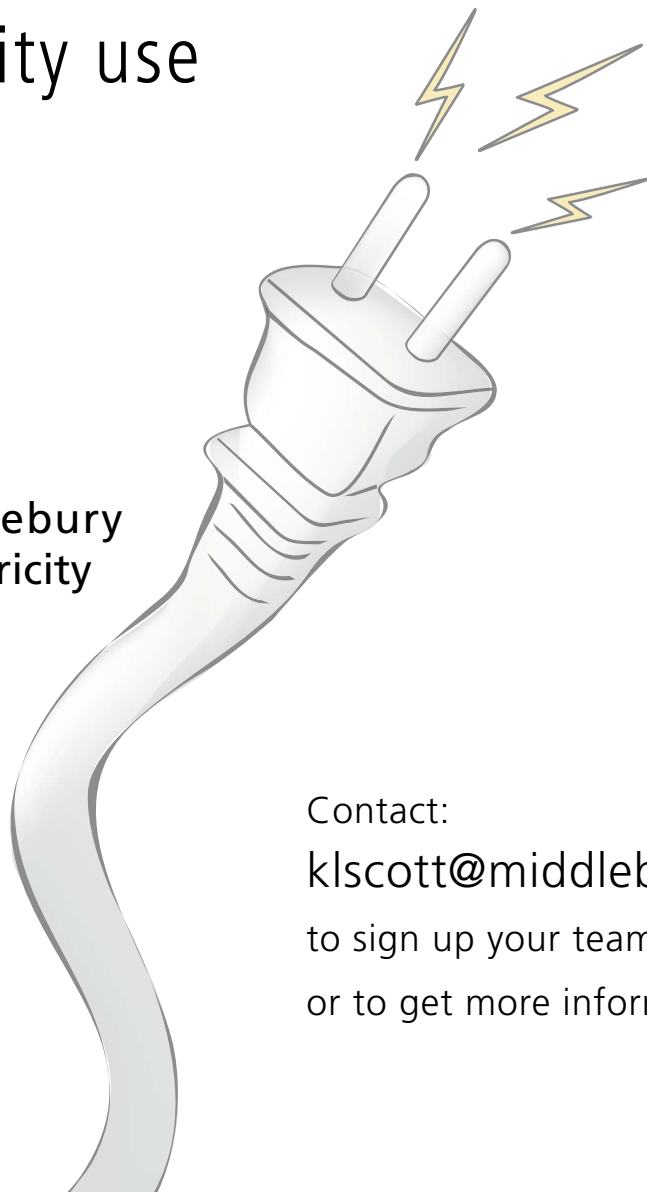

Track your electricity use

Take it off!

WIN \$100
and
\$25 Kiva gift card

Did you know that at Middlebury we use over \$2 million in electricity each year?

Power Strip is a team challenge to conserve electricity around campus. Teams of five students, faculty, or staff members compete in each two-week Power Strip challenge, using Kill-a-Watt meters to track electricity usage in their office or dorm rooms. Winners will be announced at the end of Spring Semester.
